Summary

Computer Science Engineering graduate with strong skills in **Full Stack Development**. Passionate about building scalable, responsive, and user-friendly applications using **HTML, CSS, JavaScript**. Highly motivated to create efficient digital solutions.

Skills

Programming & Querying: Python, JavaScript
Front-End Development: HTML5, CSS3, Bootstrap, Tailwind , React, React Router DOM, AEM sites, EDS, AEM Forms
Version Control: Git, GitHub
Tools or technique: Figma, AJAX, Vite
Soft Skills: Communication, Teamwork

Experience

Associate Technical Consultant **Aug 2026 – Present**
DEPT®, *Bengaluru* *Tech: Adobe CMS, AEM, EDS, HTML, CSS, JavaScript, Git, AI Tools*

- Working as a UI Frontend Developer on a banking project, building and maintaining websites using Adobe's content management system.
- Developing reusable content blocks and UI components using HTML, CSS, and JavaScript to deliver responsive and consistent user experiences.
- Leveraging AI-assisted development tools to accelerate bug identification, debugging, and issue resolution.
- Collaborating with cross-functional teams to resolve UI issues, improve website functionality, and deliver high-quality frontend solutions.

Technical Apprentice (AEM) **Jan 2026 – Jul 2026**
Adobe Systems, *Bengaluru* *Tech: AEM Sites, AEM Forms, Edge Delivery Services (EDS), HTML, CSS, JavaScript, Git*

- Worked on Adobe Experience Manager (AEM) Sites to build and manage dynamic web content and components.
- Developed and customized forms using AEM Forms, ensuring a seamless user experience and reliable data handling.
- Contributed to Edge Delivery Services (EDS) projects to optimize content delivery and improve website performance.
- Collaborated with cross-functional teams to implement scalable solutions following Adobe best practices.
- Used Git for version control and participated in Agile workflows to support efficient project delivery.

Full Stack Developer Intern **Sep 2025 – Mar 2026**
Luminar Technolab, *Thiruvananthapuram* *Tech: HTML, CSS, JavaScript, Node.js, Git, Figma*

- Developed responsive web applications using HTML5, CSS3, Bootstrap, Tailwind, and Node.js for client projects.
- Collaborated with UI/UX teams using Figma to convert wireframes into interactive interfaces.
- Optimized front-end performance, reducing page load time by 25% through efficient component design.
- Used Git/GitHub for version control and contributed to Agile-based sprint planning.

Projects

Bangkok Bank Website (Adobe Systems) **Jan 2026 – Jul 2026**

- Contributed to the development and maintenance of the Bangkok Bank website using Adobe Edge Delivery Services (EDS).
- Designed and developed **6 reusable EDS content blocks** using HTML, CSS, and JavaScript.
- Resolved UI, functionality, responsiveness, and accessibility issues across multiple EDS components based on client and QA feedback.
- Collaborated with cross-functional teams using Git and Agile workflows to deliver production-ready features and bug fixes.

Impact of Gambling Mechanics in India's Mobile Gaming Industry **Oct 2024 – Feb 2025**

- Researched the psychological and market impact of gambling mechanics in mobile gaming applications.
- Performed data analysis and surveyed user behavior patterns to identify emerging trends.
- Presented findings highlighting the socio-economic effects of gambling-oriented mobile games.

Mind Master (HTML, CSS, Bootstrap, Figma, Git) **Mar 2025 – May 2025**

– Developed a mobile-friendly web application to help users combat gambling addiction.
– Implemented website blocking functionality for harmful gambling content.
– Designed intuitive UI prototypes in Figma and built responsive layouts using Bootstrap.

Awards & Certifications

- **Adobe Technical Apprenticeship Certificate – Adobe Systems (2025).**
- **Web Developer Bootcamp (Udemy, 2025):** Learned responsive design and advanced CSS techniques.
- **NCICIS Conference – SRM University (2025):** Presented research paper on gambling mechanics in India.

Education

B.Tech in Computer Science Engineering (Gaming Technology) **2021 – 2025**
SRM Institute of Science and Technology, Chennai

Higher Secondary Education (Class XII) **2020 – 2021**
Palghat Lions School, Kerala *91*

Secondary Education (Class X) **2018 – 2019**
Holy Trinity School, Kerala *88*
